"This is a novel full of heroes; children emotionally abandoned and discarded, gathered together against the world, finding love, family and brotherhood where they can. They are drunken, drug abusing, violent, funny, foul, thieving, promiscuous... all of it underage, and these are the good guys!"

I don't think we have had this kind of something for a long time. It feels like it's 1975 and Punk is arriving all over again. So buckle in, read it, rejoice in it, and buy a couple of copies... the fun police are sure to call and burn one of them!"
